FERRIS RAHU

Business & Entrepreneurship Student • AI Projects • Web Development

Tallinn, Estonia | ferrisrahu33@gmail.com | +372 507 1898

PROFILE

Entrepreneurship-focused student at Estonian Business School with hands-on experience in event production, digital services and building practical AI prototypes. Interested in turning technology into useful products and testing business ideas through real-world projects.

EDUCATION

Estonian Business School (EBS) | *Business and Entrepreneurship · 2026–present*

Studies focused on entrepreneurship, marketing, business development and practical startup work.

EXPERIENCE

Event Center — Stagehand / Event Setup

Assisted with stage and truss setup, event preparation and teardown. Worked in teams under event timelines with an emphasis on practical problem-solving and reliability.

SELECTED PROJECTS

Personal AI Voice Agent | *2026*

Built a bilingual English–Estonian voice assistant for an EBS assignment, using local AI inference and speech tools. Made the interface accessible by QR code while keeping model services on the host computer.

AI Boardroom | *2026*

Co-developed a multi-model decision-review workflow designed to challenge assumptions, organize feedback and produce concise decision summaries.

RN Web Studio | *2026*

Worked on a web services concept focused on business websites, online stores and maintenance, including client-facing service positioning and digital presence.

SKILLS

AI & development: Claude Code, ChatGPT, Ollama, local AI workflows, Git/GitHub, VS Code, prototyping

Business: entrepreneurial research, digital marketing concepts, project coordination, presentations

Practical work: event setup, teamwork, client communication, problem-solving

LANGUAGES & INTERESTS

Estonian (native) • English (strong) • Russian (basic) • German (A2)

Interests: entrepreneurship, AI, investing, golf and technology.
